

FACTORY OF VINTAGE CANDLES

CATALOGUE 2016

WE CREATE CANDLES. If you love candles, if you are fascinated with their fire, their radiated warmth, aroma and shadow dance, then follow us... Our candles are made by hand from 100% soy wax. Soy wax is a relatively new, green and absolutely natural raw material for the manufacture of candles. Unlike many candle producers that use in the manufacture only 25% of soy wax, we use it at 100%, as we care of the health of our customers and clean environment.

They are filled manually in a tin container and pasted over with unique thematic vintage labels of our own design, each of which has its own history and destiny. And, of course, a wooden wick! We use WOODEN ECO-WICKS MADE OF NATURAL ECO WOOD, not chemically treated. When burning candles, such wooden wicks crackle soothingly and emit pleasant aroma. Wooden wicks by VINTAGE CANDELLA – it is 100% eco-friendly flame! We use HIGH QUALITY CERTIFIED PREMIUM-CLASS FRAGRANT OILS by the world-leading manufacturers of perfumes and cosmetics. The same aromatic fragrant oils are used in the manufacture of perfumes and body lotions, which in itself is a guarantee of high quality and environmental friendliness.

WELCOME TO THE WORLD OF VINTAGE CANDELLA!

WE VALUE EACH CUSTOMER and strive to ensure that the owner of our candle enjoys the heat and light, emitted fragrance, unique aesthetic image, in which our candles are made, and remain a fan of VINTAGE CANDELLA for life. The major line of our products is thematic collections of vintage candles, which, of course, in their appearance differ from the products of other companies working with soy wax. Our candles are attractive, bright and beautiful.

When you buy soy candles by VINTAGE CANDELLA, you can be sure that each candle is filled by hand, made with love and respect for the environment and your health. We are proud to make truly perfect candles and crave to share our joy and pride with you. Enjoy them! A source of romantic lighting, a candle creates a special mood in any premises. In addition to the gentle light the candles by VINTAGE CANDELLA spread a pleasant fragrance, creating appropriate mood: sensual – for an evening together, fresh – to stimulate creativity and imagination, relaxing – for a relaxing bath or calm afternoon rest. Give your home a warm, gentle and welcoming aroma with the candles by VINTAGE CANDELLA!

FRAGRANCE COLLECTION BY VINTAGE CANDELLA

CHOCOLATE DELUXE

Sinfully rich, dark chocolate decadently collides with sensational notes of fresh cream, smooth butter, and velvety chocolate.

ROSE JASMINE Two classic florals make a beautiful blend! Sweet Jasmine compliments delicate rose in this pretty fragrance. This floral bouquet captures the essence of dewy green freshness!

YLANG YLANG An Indonesian tree with yellow blossoms that give a narcotic, sweet floral smell. The fragrance is intensely sweet, heady, floral, and slightly spicy, with a narcissus or banana like overtone. A very relaxing fragrance!

FIG The sensuous scent of a fig tree is like nothing else in the world. It is all at once woody, green and sweet. Full of life, power and a history of mythical creatures, magical times and wonderful stories. This blend was inspired by the brilliant and classic French interpretation of fig using all the elements of the tree. Contains notes of green fig, cedar, patchouli, tonka, and musk.

INDIAN PATCHOULI Dark woody, sweet amber, earthy, musty with a touch of fruit and spice. Patchouli is a very special and distinct note. It would be difficult to describe it to someone who've never smelled it; and once you have experienced patchouli, you are very unlikely to forget it!

OUR VINTAGE CANDLES

The market boom in the beginning of the 20th century, the industrial revolution, appearing of such a novelty as printing of color labels. The history of utilization of labels takes root in the end of the 19th century. It is known that the color paper labels were used in labeling of products already in 1880. The first self-adhesive label was invented by the American entrepreneur R. Stanton Avery in the 30th of the 20th century. There are the vintage labels of the brands of the past years attached on every container of VINTAGE CANDELLA manually. 100% soy wax, 100% handmade, and a vintage label with its own history. Later the container can be used as an interior element or a moneybox.

OUR VINTAGE CANDLES

PILLAR CANDLES ARE AVAILABLE
WITH ALL FRAGRANCES BY
VINTAGE CANDELLA

OUR VINTAGE CANDLES PILLAR CANDLES

DISCOVER OUR NEW COLLECTION OF WONDERFUL PILLAR CANDLES!

Most of the companies, having no production technologies for pillar candles, often make their candles in the amateur level, adding various pigments or decorations inside the candles. Such candles usually crack, drip or even burn poorly. It is the reason, why we have decided to launch our molded candle collection of flawless quality, appearance and aroma.

As always, our candles are handmade from soy wax, having an ideally beautiful and elegant shape. We use a pure cotton candlewick, which does not release any hazardous substances, when burning. Our pillar candles are scented with fragrant oils of premium class, and always smell exotic and aristocratic at same time. Our aromas will not leave you indifferent!

Our candles are packed into a recyclable cardboard box designed in a simple retro style.

Our candles are ideally suitable as a gift for your sweetheart, a stylish party and, of course, for an unforgettable evening with Your beloved one.
